

The Foot and Ankle Wellness Center of Western Pennsylvania

Post Operative Narcotic Prescription Policy

Due to the policy of the Drug Enforcement Agency (DEA) and state regulations, narcotic pain medication will only be used in the thirty (30) day post operative period. We will make every effort to make the transition to a non-narcotic medication as comfortable for you as possible. Non-narcotic alternatives will be prescribed to you as needed after the thirty day post operative period has ended. By signing below you acknowledge and understand our post operative narcotic prescription policy of The Foot and Ankle Wellness Center of Western Pennsylvania.
